

2018 SOUTH CENTRAL REGIONAL INFORMATION SHARING INITIATIVE (ISI)

CYBER AND COUNTERINTELLIGENCE LEGAL CONSIDERATIONS

FBI ISI Program Information

The Huntsville and Birmingham Member Alliances in partnership with the FBI are pleased to announce the deployment of the Huntsville - Information Sharing Initiative "Cyber and Counterintelligence, Legal Considerations."

The South Central-ISI Program was designed to maximize the benefit of information sharing to the public and private sector. The ISI seeks to adopt a consistent, cross-functional, multidisciplinary approach to assess and manage information sharing. This particular session will concentrate on counterintelligence and legal considerations to information sharing between private sector companies and the Federal Government.

PROGRAM GOALS:

- Develop process to gather, assess and share relevant information with appropriate authorities in a timely manner.
- Utilize an enterprise risk management approach to identify and share pertinent information, including issues which may negatively impact a particular industry and/or critical infrastructure.
- Contribute toward a safer environment for all entities through partnerships and mutually beneficial information sharing practices with the FBI and others.
- Understand mutual considerations for both private sector and the federal government.
- Provide relevant, timely and actionable information to private sector entities that will better enable them to protect their industries.

Information Sharing Initiative Highlights

The FBI Information Sharing Initiative (ISI) program:

- Sponsored by the InfraGard Huntsville and Birmingham Member Alliances
- Participants are comprised of FBI personnel, InfraGard Members, and non-affiliated private sector legal representatives.
